23. What is the best thing the instructor did to help you learn, and what should the instructor improve in this course?

- BEST EVER CLASS IN TSU. The instructor helped me learn by explaining/teaching by doing most of the stuff, communicating effectively, always being there to help, and making learning fun and interesting. She is the best instructor, and knows how to teach this course very well.
- Dr. Roy was very thorough in her presentations, and would often ask questions to make sure that the class understood. She also implemented questions to understand how the class understood the lecture. The practicals also provided hands on experience so that students can learn both the theory and the practical portions of the science. I can not at this time think how she can improve the class further. It is one of the best classes I have taken at TSU.
- The way the instructor teaches the subject is amazing. Its basically molecular concepts but way of presentation and PowerPoint slides and teaching was really amazing. Its enhanced by knowledge
- That's good enough for me. Students will learn a lot from this class if they want to know about gene editing.
- My instructor helped to understand toughest and most evolving technology with easy ways and active teaching.

24. With reference to technology, tutorial support, and the prerequisite for this course, if applicable, what changes would you suggest to the University to make this a better course?

- Nothing to suggest. This course is already the best.
- N/A
- NO
- Nothing to change
- Even though this is first time offering course, my instructor made better course.
